EBRD: ALBANIA'S QUICK ECONOMIC RECOVERY WITH 12%

The Director of European Bank for Reconstruction and Development (EBRD) in Albania said: "Looking beyond 2020, our forecasts predict a rapid recovery in 2021, with a 12% growth, higher than the losses of this year. So, as per forecast Albania will really be affected as a result of the crisis this year, but this will be followed by a significant economic growth in 2021, always relying on the assumption that travel and trade flows will return to normal.
